Zion Corridor District Leader

- ▶ The Utah Compact - Chuck Goode

The Utah Compact was developed over several months by groups and individuals who were concerned about the tone of Utah's immigration discussion. The Compact is based on Utah values and we urge our leaders to use these guiding principles as they address the complex challenges associated with a broken national immigration system. The Compact has broad support from community leaders, business associations, law enforcement and members of Utah's religious community. It is a simple document that expresses our values as a community as they relate to specific policy issues that have become central to the immigration discussion.

THE UTAH COMPACT

FEDERAL SOLUTIONS Immigration is a federal policy ... We urge Utah's congressional delegation to lead efforts to Utah as a strengthen federal laws that protect our national borders.... Adopt reasonable policies for immigrants in Utah.

LAW ENFORCEMENT We respect the rule of law Local law enforcement should focus on criminal activities, not civil violations of federal code.

FAMILIES Strong families are the foundation of successful communities..... We support families that improve health, education and well-being of a Utah children

ECONOMY Utah is best served by a free-market philosophy ... We recognize the economic role immigrants play as workers and taxpayers ... We must reaffirm Utah as a welcoming state.

A FREE SOCIETY Immigrants are integrated into our communities across Utah. We must adopt a humane approach to this reality, reflecting our unique culture, history and spirit of inclusion. The way we treat immigrants will say more about us as a free society and less about our immigrant neighbors. Utah should always be a place that welcomes people of goodwill.
